

## Programs for:

- Schools – elementary to college
- Libraries
- Book Clubs
- Community Organizations
- Conferences
- Writing Workshops

Presentations tailor-made for your organization.

### STAKEOUT

A haunting promise compels Kenzie to ensure sea turtle survival by ending a rash of nest robberies. Fearless, wheelchair-bound Ana and savvy, troubled Angelo assist Kenzie in an undercover sting that grows increasingly complicated and treacherous. Problems compound as Kenzie fears losing her first romance, her mother's trust, and her own life.

Bonnie J. Doerr has taught students from kindergarten to college. An M.Ed. in reading education, combined with a brief post as a science teacher, inspired her to write ecological mystery/adventures for readers age ten and up. Her novels celebrate caring, involved, green teens who take action with attitude and a touch of romance. Ms. Doerr's work is included in Milkweed Editions literary field guides and used in classrooms for cross curricular education. She is a frequent speaker/presenter at literary and educational events. When not researching in the Florida Keys, she lives in a log cabin in North Carolina.

*"Island Sting has the perfect blend of adventure, light romance, environmental and personal issues that many teens face." Edith M. Hemingway, author of Road to Tater Hill, winner of the Parents' Choice Gold Award.*

## ISLAND STING

Kenzie trades New York streets for Keys pollution cleanup, and now, instead of hailing cabs, she's tracking down a poacher of endangered Key deer. Her new home does have some benefits—mainly Angelo, an island native, who teams up with her to nab the culprit. But will they both survive when the killer turns from stalking deer to hunting humans?

For readers age 10 and up.

*"Bonnie J. Doerr has an enthusiastic, airy and welcoming demeanor perfectly in sync with her subject matter...a breath of fresh air at a conference...generous with advice... both professional and approachable..." Bobbie Scheide, SCBWI*

*"Ms. Doerr does a wonderful job explaining the writing process to children. Her enthusiasm excited children to elaborate in their own stories. [With her game] Ms. Doerr brought to the children a need to protect the environment and be aware of how important an animal's habitat is to its survival." Kathy Rowe and Hope SanFilippo, Cornatzer Elementary, Mocksville, NC*

*"As a resident and National Key Deer Refuge volunteer, I found that Island Sting's factual basis was accurate, and I also enjoyed the fictional story." Sanford Brown, Big Pine Key, Florida*

*Bonnie J. Doerr inspired my students and me to jump into writing and not worry about getting stung! Margaret Van de Ree, Pine Lake Preparatory, Mooresville, NC*

Cost of presentations negotiable depending on type, length, and travel costs. Contact author or publisher (Leapbks.com) for educational discount on books.
